Skype Voice Changer Crack Download

KeyMacro for Skype is a powerful Skype Voice Changer for personalizing audio messages for Skype calls. It works on Skype versions 4.0 and later and supports all known Skype accounts. With KeyMacro, you can send a recorded message or even video of your own in a personalised voice for Skype calls. The voice of the person you record it can be male or female, and you can change the voice in the beginning, middle or end of the message. The application features of KeyMacro are: To record your own voice, select one of the audio recorders or record audio directly from a microphone. To add personalisation in the beginning, middle or end of the message, select the End, Middle or Beginning option. To add speed and a specific tone, select the desired speed. To synchronize the audio and the video, start the video recording in the message you are going to send. To record your message from a file, select the Create File option. You can send your recorded messages, or even a video, to a Skype user by pressing the Send button. Also, you can send a voice message from your Skype conversations to your cell phone, PDA or other mobile phone. You can send your messages at any time to a Skype user. Also, you can send your messages to Skype user on any day or time. To prevent the audio message to be recorded by the Skype user, you can set the desired timeout for the message. You can specify the number of seconds that the message is played. To hide the window of KeyMacro, you can change the hide status option in the first column of the configuration window. To display the message in the center of the Skype window, you can set the autoscroll option in the first column of the configuration window. Skype Voice Changer is a handy and reliable utility designed to simulate male or femail voices and to personalize messages with various sound effects. Skype Voice Changer also allow users to recod Skype calls together with the changed voice. The interface is simplistic and accessible. KEYMACRO Description: Program Features: At first time skype voice changer make a new profile. There is multiple sound effect. Multiple speed. Allowing send any message by the sound effect that chosen at any time during message. But all the option 1d6a3396d6
