You choose a path. Polymorf3D will show a colourful spinning 3D object that morphs and distorts into all sorts of unpredictable shapes. Whether it's big or small, the 3D object will be spinning in front of you. It will also rotate in the air, its upper half becoming transparent to show the spinning 3D object. Click anywhere in the 3D object to make it stop spinning. As you move your mouse pointer around the screen, the 3D object may go into different shapes, and may even start moving around. Finally, when you click anywhere on the screen again, it will stop spinning, and the colours will fade back to normal. Playing music while Polymorf3D is running will help you better understand it's ideas. Polymorf3D Control: ? Keyboard: You can use the up/down arrows to go to the next or previous shape. Use the left/right arrows to speed up or slow down the spinning. ? Mouse: You can drag the 3D object around the screen to change its shape. You can also click anywhere on the screen to make the 3D object stop. When it stops, the colours fade back to normal. Screenshots: ? Set up: ? Preferences: ? Playing music: ? Screensaver: ? About: ?
