multiple choice tests. I use another product to mark the answers. I have also used this to create a sort of test based on information that is found in a database. Q: What is the difference between this and "TestMaker Express"? By: ku A: Your answer Version: Just to clarify, TestMaker is a commercial product and this is an open source project. TestMaker Express is a fully featured, professional grade test making tool. I have used this product to create multiple choice tests. I use another product to mark the answers. I have also used this to create a sort of test based on information that is found in a database. Q: This looks like it would be a good alternative to TestMaker Express but how does it compare to that one? By: Anonymous A: Your answer Version: The downside of the test maker express is that you cannot remove a question, it is not a real multi choice test. As I said above,

---

it is also difficult to edit the questions and answers. Q: Are there any other quiz maker software available? By: Anonymous A: Your answer Version: The quiz maker on this page is the best one in my opinion, I have made a lot of quizzes for my high school with it. Q: I am running a windows server 2000. Is this software still compatible with it? By: anonymous A: Your answer Version: It should run fine on Windows Server 2000. Q: Is it possible to create questions with a graphics icon. I have never used any kind of test maker software before. By: Anonymous A: Your answer Version: I don't believe you can do this with quiz maker express, the multiple choice field simply doesn't have that option. However, you should be able to change the background image. You can use the provided backgrounds or create your own.
